Feb 7

Dear Jack:

Preliminary reactions to
your coming for most of April:
(1) Would be fine - at least better
than not at all (2) How about
being a visiting lecturer, 3 lectures
at \$100 @? If an additional
\$200 would determine it, I could
dig it up, I think. (3) So many absolutely
out? It would be better for me -
I doubt if I'll make it, but N.A.S.
meetings are April 23-25. (4) Housing
shouldn't be impossible - among other
things, lots of excellent motels - not too
expensive by month

On public conference - We're already
having trouble keeping to workable
size - but I'd be glad to have Esther,
although would have to clear it
first. See you in N.Y. Ed
